

Assignment No.: -01 (Div-A)

Create Project Plan for Mobile App Development

- Specify project name and start (or finish) date.
- Identify and define project tasks.
- Define duration for each project task.
- Define milestones in the plan
- Define dependency between tasks
- Define project calendar.
- Define project resources and specify resource type
- Assign resources against each task and baseline the project plan

Project Plan: Mobile App Development

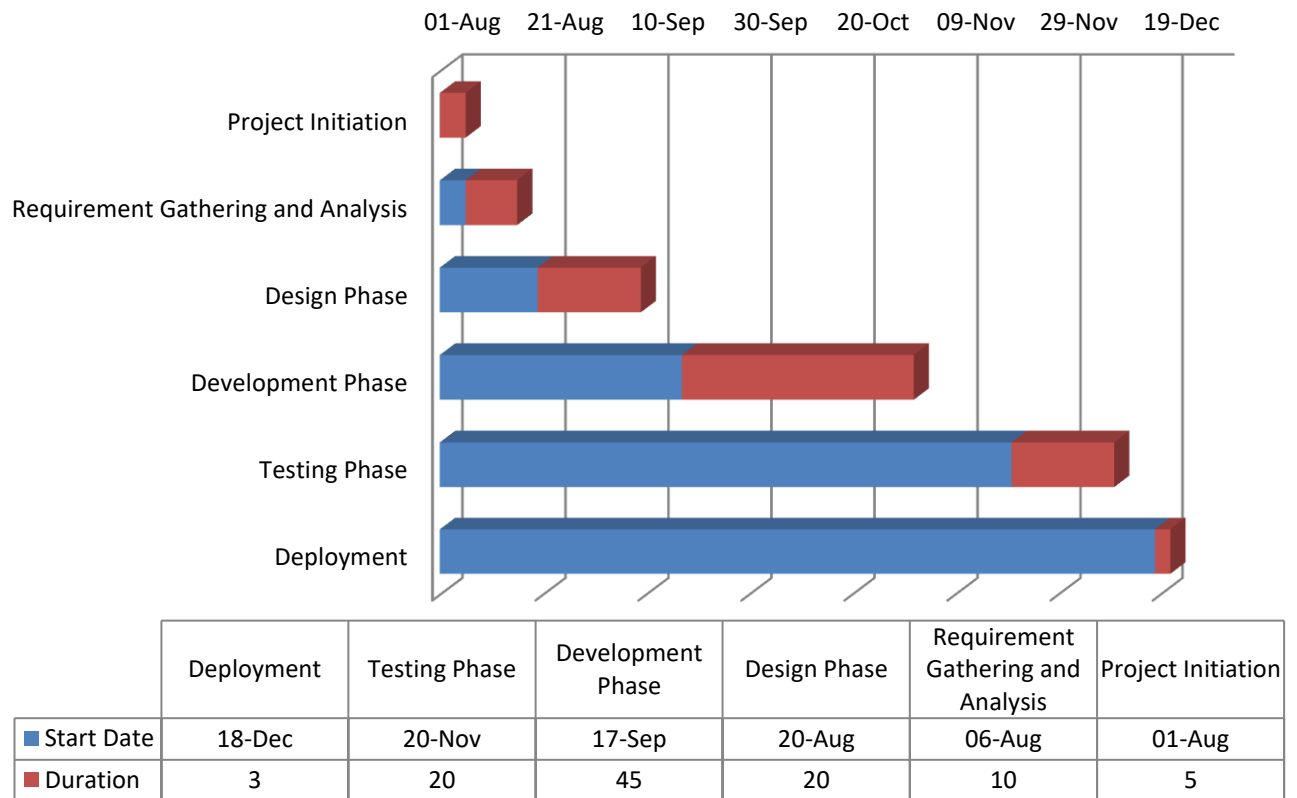

Project Start Date: August 1, 2024

Project End Date: December 20, 2024

Resource Calendar

- **Workdays:** Monday to Friday
- **Daily Working Hours:** 8 hours (adjust as per actual work schedule)
- **Holidays:** Adjust according to the specific region's holidays

Baseline Resource Allocation

- **Baseline Assignment:** Record the initial resource allocation and hours estimated for each task.
- **Tracking:** Monitor actual resource usage against the baseline to ensure the project stays on track.

Notes

1. **Resource Utilization:** Ensure each resource's workload is balanced and adjusted based on project progress.
2. **Resource Conflicts:** Resolve any conflicts where resources might be over-allocated or have overlapping tasks.
3. **Communication:** Regularly update resources on task status and changes to the project plan.

Baseline

- **Baseline Date:** 2024-07-15
- **Estimated Completion Date:** 2024-09-27
- **Total Duration:** 75 days

This table covers the basic structure of the project plan, including tasks, durations, milestones, dependencies, calendar, resources, and baseline information.

Critical Path Review

- **Critical Path Tasks:** 1 → 2 → 3 → 4 → 5 → 6 → 8 → 9 → 10 → 11 → 12
- **Current Status:**
 - Tasks 1 through 5 are completed, each with a 1-day delay.
 - Task 6 is 75% complete and on schedule.
 - Task 8 is dependent on the completion of Task 6 and has not started yet.

Resource Assignment Status

Resource Name	Assigned Tasks	Current Task	Status
Project Manager	1, 5, 12	Monitoring & Coordination	Active

Resource Name	Assigned Tasks	Current Task	Status
Business Analyst	2	Requirement Gathering	Completed
UX Designer	3	App Structure Planning	Completed
UI Designer	4, 10	Final Revisions	Pending

Mobile App Developer	6, 10, 11	Development Phase	Active
Content Writer	7	Content Creation	Active
QA Tester	8, 9	Integration and Testing	Pending
Client	5, 9	Design Review & UAT	Pending

Summary

- **Overall Status:** The project is slightly behind schedule due to a series of 1-day delays in the initial tasks.
- **Critical Path Impact:** The delays in early tasks have impacted the critical path, but ongoing tasks (6 and 7) are on schedule, which might help recover some lost time.
- **Resource Allocation:** All resources are actively engaged or prepared for their upcoming tasks. The focus is on completing the Development Phase and Content Creation to proceed with Integration and Testing.

This table captures the on-going status and monitoring aspects of the Mobile App Development project, including % complete, task status, and comparisons of planned vs actual progress.
